## OBJECTIVE

Driven Computer Science student with hands-on experience in backend development, API design, and cloud services. Seeking opportunities to apply my skills in Go, AWS, and full-stack development.

## EDUCATION

**Bachelor of Technology**, ITER , SOA University                                               2022 - 2026

## SKILLS

| | |
|---|---|
| **Languages** | Go, Python, Java, C, PHP, JavaScript |
| **Web Technologies** | Node.js, Express.js, ReactJS, FastAPI, REST API |
| **Databases** | MySQL, MongoDB |
| **Cloud Services** | AWS S3 |
| **Payment Integration** | Stripe |
| **Others** | Debugging, Chrome extension development, Git, Docker, API development |

## EXPERIENCE

**Junior Developer Intern**                                                                Aug 2024 - Present
Moaisus

- Developing backend solutions using Go and building APIs.
- Managing and optimizing AWS S3 bucket operations
- Collaborating with a team of developers to implement new features. .

**Software Developer Intern**                                                           July 2024 - Aug 2024
Paultech Software Services

- Designed and implemented RESTful APIs using FastAPI. .
- Assisted in backend architecture and database management.

**Web Development Intern**                                                             May 2024 -July 2024
Paultech Software Services

- Developed web applications using PHP and MySQL.
- Worked closely with the frontend team to ensure seamless integration.

## PROJECTS

**RESTful API with FastAPI .** Developed a RESTful API for user authentication and book management. Integrated MySQL for efficient data storage and retrieval. **Skills Enhanced**: API design, FastAPI, MySQL, Backend development.

**E-commerce Dashboard Development**  Built an admin dashboard for an e-commerce company to manage products and orders. Technologies used: PHP, MySQL, JavaScript, HTML, CSS. **Skills Enhanced**: Full-stack development, database management, PHP, JavaScript.

**Facebook Clone .**  Created a social media platform with features like user authentication, posting, and friend requests. Implemented ReactJS for the frontend and PHP, MySQL for the backend. **Skills Enhanced**: ReactJS, JavaScript, backend development, user authentication.

## EXTRA-CURRICULAR ACTIVITIES

- **State-Level Kabaddi Player**

- Represented school at cluster and zonal levels in Kabaddi.

- Developed strong teamwork, communication, and decision-making skills by coordinating strategies and adapting to dynamic situations.

- Enhanced leadership abilities by guiding the team during intense match conditions.

- **Cricket Player (College Events)**

- Played in college-level cricket tournaments, collaborating with teammates to achieve team goals.

- Demonstrated problem-solving under pressure and adaptability in diverse team settings.

## LEADERSHIP

- As a state-level Kabaddi player, I led my team through high-pressure situations, enhancing my decision-making and communication skills. In my internships, I contributed to team projects by offering technical insights and fostering collaboration to meet deadlines.
